

The company Se.co.pack s.r.l has defined its own Quality Policy, the fundamental principles of which are pre-requisites of the business.

The company Se.co.pack s.r.l is committed to the satisfaction of the needs of the interested parties referred to in its activity of: Transformation of stretch film, trade of stretch film and other packaging materials.

Such interested parties include Customers, Collaborators, Management, Suppliers, Ownership and Community of the territories in which the Company operates.

In order to satisfy the parties involved in the business, the company Se.co.pack s.r.l has adopted a Quality Management System with the aim of:

1. Define the responsibilities of the Quality Management System;
2. Ensure consistent management of the context and strategic direction of the organisation;
3. Ensure the integration of the Quality Management System to the business requirements and the corporate mission;
4. Implement, for your organization, the process approach and promote risk-based thinking;
5. Periodically check the degree of efficiency and effectiveness achieved by the Quality Management System, the start of the appropriate corrective actions and risk management to achieve the objectives;
6. Ensure the availability of adequate resources for the implementation, maintenance and improvement of the Quality Management System;
7. To meet the needs of the Customers, ensuring a product and a service that complies with the requests and requirements specified therein, in compliance with mandatory legislation;
8. Promote staff awareness of the importance of business activities as a tool for customer satisfaction.
9. Involve staff in the adoption, implementation and improvement of the Quality Management System;
10. Ensure the effectiveness of decisions taken based on the analysis of data and documented information, involving staff on objectives and analysis of results;
11. Establish continuous improvement targets in accordance with applicable requirements.

The company Se.co.pack s.r.l has therefore developed, and keeps up to date, its own Quality Management System certified in accordance with the requirements of the UNI EN ISO 9001

standard:2015, to allow the achievement of the objectives defined and periodically reviewed in the Management Review.

The company Se.co.pack s.r.l undertakes to keep the Quality Policy up to date, to ensure that it is communicated and understood within the organization and available to all interested parties.
